Meeting Accomplishments:

- Members worked together to solve a series of increasingly difficult math problems worth allocated numbers of points for prizes
- Students were excited about working together and trying to rack their brains in mutual effort
- Student unanimously enjoyed themselves and the attendance numbers remained high
- Many people worked with those who they have not typically been associated with
- Most students learned something new upon reviewing their own mistakes and learning the clever solutions to problems (especially the final problem which was discussed on the board)

Meeting Accomplishments:

- Co-president Kristine Lu gave an excellent lecture on Expected Value
- Many students learned something that they hadn't previously known
- Students were given novice insight onto a relatively basic concept and how they could manipulate the fundamentals into creating beautiful solutions to unsuspecting problems that might not look very applicable for the concept at hand
- Students all thought extensively on the final challenge problem as some figured out the solution
- Most club members were retained from the previous week
- Some board members were able to introduce themselves to other members
- Announced sign-up information for Math Madness, a fun online high school math competition hosted by the Mathematical Association of America (MAA)

Pre-Authorization Approvals:

- Purchase for 2023 Math Madness (an online math competition) registration fee of \$295.00 approved

Meeting Accomplishments:

- President Raymond Luo gave a very intriguing lecture on sequences, working his way up from basic concepts (expressing the sequence in a new, more work-able way, listing out terms and seeing patterns like fibonacci or binary (and being intuitive about doing so), etc.) to more advanced HMMT problems that are amongst the hardest in the world for high schoolers
- Many members are continuing to fill up every seat in the classroom and more, which is great
- People have officially heard lectures from both presidents now, so they are familiar with important concepts and members
- A few people were participating in the lecture whenever they could, which is good audience engagement
- AMC sign-ups and information were formally announced and the qr code to sign up was presented
